PROFESSIONAL SUMMARY

Results-driven Manager with extensive experience in IT support, project management, and workflow improvement. Skilled in leading cross-functional teams, streamlining processes, and completing high-impact projects on schedule in sectors such as technology, education, and retail.

PROFESSIONAL EXPERIENCE

Manager of Upgrades

Yellow Dog Software – Norfolk, VA | February 2025 – Present

- Managed the daily operations of the upgrade process, acting as a liaison across technical teams to ensure smooth execution and communication.
- Led team stand-ups, identified blockers, and escalated high-priority technical issues to leadership (“911s”) for quick resolution.
- Coordinated cross-department collaboration with QA, Integrations, and IT to align timelines and support system rollouts and reversions.
- Supported release planning and deployment of client-critical updates, contributing to system stability and user satisfaction.
- Oversaw onboarding procedures for Upgrade Specialists, ensuring all documentation (playbooks, guides, checklists) met internal quality standards.
- Proactively monitored team metrics, including time tracking and documentation accuracy, to drive process compliance and efficiency.
- Conducted post-upgrade reviews with department heads to identify root causes of rollbacks and implement preventative improvements.
- Played a key role in improving the customer experience by facilitating seamless transitions across Sales, Support, and Data Services teams.
- Regularly contributed to process documentation and reporting to track upgrade outcomes and identify opportunities for customer journey optimization.

Technical Project Manager

Yellow Dog Software – Norfolk, VA | April 2022 – February 2025

- Directed end-to-end project management for high-profile clients across industries, including major sports leagues (MLB, NHL, NFL), hospitality, and retail, ensuring delivery of solutions aligned with client goals.
- Designed and maintained interactive dashboards using Zoho Analytics to visualize project progress, resource allocation, budget performance, and KPIs, enabling data-driven decision-making for leadership.
- Strategically assessed and allocated cross-functional resources, coordinated priorities, and effectively communicated timelines and deliverables to internal teams and clients.
- Implemented and optimized ticketing, email, and analytics systems, enhancing project tracking, and issue resolution for a seamless project lifecycle.
- Monitored project performance through detailed assessments, identified risks, and executed mitigation strategies to ensure adherence to deadlines, quality standards, and budget constraints.

Technology Support Technician

Virginia Beach City Public Schools – Virginia Beach, VA | February 2019 – March 2022

- Delivered frontline technical support to staff and students, resolving hardware, software, and connectivity issues promptly to ensure minimal disruption to educational activities.
- Configured and deployed new computers, peripherals, and software, ensuring all systems met organizational standards and user requirements.
- Maintained detailed service documentation through the DOT Service Desk application, tracked service requests, and ensured timely resolution of technical challenges.
- Managed user accounts, facilitated access to instructional applications, and performed administrative tasks to support the seamless integration of technology into the educational environment.
- Oversaw inventory management for technology assets, coordinated logistics for new equipment deliveries, and ensured the accurate setup and functionality of all technology deployments.

Education Support Specialist

Tidewater Community College – Virginia Beach, VA | 2014 – 2019

- Provided comprehensive IT support to students and staff, troubleshooting software and hardware issues to ensure uninterrupted functionality across the Student Center's technology systems.
- Designed and executed marketing materials, including digital signage and event posters, to promote Student Center activities and enhance engagement.
- Streamlined room reservation processes by managing client requests, coordinating logistics, and ensuring timely responses to meet user needs effectively.
- Collaborated with internal teams to address and resolve IT challenges, maintaining high levels of satisfaction and operational efficiency for Student Center users.
- Maintained an organized and accessible record of reservations, client communications, and event logistics to support accurate reporting and planning

Manager

Batteries Plus Bulbs – Virginia Beach, VA | May 2018 – November 2018

- Directed staff operations to achieve sales targets, including hiring, training, and supervising team members while fostering a collaborative and high-performance work environment.
- Oversaw daily operations, including inventory management, banking, product orders, and client relations, ensuring accurate documentation and smooth workflows.
- Maintained customer satisfaction by addressing concerns promptly and contributing to team efforts across roles as needed to meet store objectives.

EDUCATION

- **Bachelor of Science in Business Administration, Information Systems and Technology**

Old Dominion University – Norfolk, VA | Graduated: May 2018

- **Associate of Science in Business Administration**

Tidewater Community College – Norfolk, VA | Graduated: December 2014
